EDUCATION

The LNM Institute of Information Technology
B.Tech in Computer Science Engineering

Jaipur, Rajasthan
Aug 2023 – Aug 2027

Profile Summary

- Software Development Engineer with Full-Stack experience in **React.js**, **Next.js**, **Node.js**, **Express.js**, **REST APIs**, **MongoDB**, **PostgreSQL**, **GraphQL**. Built **scalable production platforms** serving 7,000+ users; strong in **DSA**, **OOP**, **System Design**, **Agile/Scrum**, **CI/CD**, and **Docker/Kafka** microservices.

Professional Experience

Marine Edge

Software Development Engineer Intern

Mar 2025 – Jan 2026

Bengaluru, Karnataka

- Engineered a **scalable web platform** serving **7,000+ users globally**, ensuring high availability and reliability
- Enhanced front-end performance with **React.js**, achieving **30% faster load speed** and improving user retention
- Built a **role-based access control (RBAC)** system to strengthen authentication security and protect user data
- Integrated the **Razorpay API** payment gateway and hosted the app on **Hostinger**, enabling reliable deployment of frequent updates

APJ Academy

Frontend Web Developer Intern

Aug 2024 – Feb 2025

Bengaluru, Karnataka

- Optimized **MongoDB queries**, reducing data retrieval latency by **25%** for faster application performance
- Built highly responsive UIs using **React.js** and **Tailwind CSS**, significantly improving mobile user experience
- Implemented **real-time data synchronization** using **WebSockets**, enabling seamless dynamic interactions on the platform

Projects

DevLab – Scalable Node.js Server with CI/CD | Node.js, TypeScript, Docker, Jenkins, GitHub Actions, Gradle

- Architected a scalable Node.js backend with **TypeScript**, ensuring type safety, maintainability, and efficient server-side operations
- Implemented a dual **CI/CD pipeline** – GitHub Actions workflow and Jenkins pipeline – with Gradle integration; containerized using Docker & Docker Compose

NammaStocks – AI-Powered Indian Stock Market Platform | React, Python (FastAPI), PostgreSQL, Docker, LLM Integration

- Built an AI-powered equity platform surfacing **real-time NSE data** (NIFTY 50, SENSEX, BANK NIFTY, VIX) with a sector heatmap, stock screener, and side-by-side comparisons
- Developed a **Python (FastAPI) backend** with **PostgreSQL** and Clerk-based authentication, integrating pluggable LLM providers to power “**Stockie**,” an in-app AI market assistant
- Containerized the full stack with **Docker Compose** for one-command deployment across frontend, backend, and database services

Ecom Microservice GraphQL | Node.js, Express, MongoDB, Kafka, GraphQL, Docker

- Developed a **scalable e-commerce platform** with 3 core microservices (user, product, order) using Node.js and MongoDB
- Integrated **Kafka for event-driven, asynchronous communication** across microservices behind a unified **GraphQL API gateway**; containerized all services with Docker

Technical Skills

Languages: Java, JavaScript, TypeScript, HTML, CSS, SQL, Python

Frameworks/Technologies: React.js, Next.js, Redux, Tailwind CSS, Node.js, Express.js, REST APIs, MongoDB, PostgreSQL, GraphQL

DevOps/Tools: Docker, Git, Jenkins, GitHub Actions, CI/CD, Kafka, Nginx, AWS

Practices: DSA, OOP, System Design, Agile/Scrum, Unit Testing

Achievements & Certifications

- GenAI Workshop – LNMIIT (100/100):** Full-stack AI – ANN, CNN, RNN, LLMs, RAG, prompt engineering
- Solved **300+ DSA problems** on LeetCode and competitive programming platforms
- Secured **Runner-Up** at LNMIIT HackCrux Hackathon for **OARFIN**, a disaster management platform
